

# Paribhasha Pradhan

Passionate about taking complicated ideas and turning them into “ohh, now I get it!”. With 6 years of experience whether it's building courses, writing technical content, or explaining tricky concepts to students and professionals, simplifying things is my superpower. Enjoy collaborative work, turning people's expertise into clear learning experiences, and creating content that helps people grow. Supervised student projects, spoke at international events, and worked with diverse teams of all domains. Curious by nature, always learning something new, and bringing energy, clarity, and creativity into every work. Detail-oriented team player with strong organizational skills, communication and public speaking skills.
